#### GATHERING THE WAIFS.

THE CONDITIONS IMPOSED BY A BENEVOLENT GEN-TLEMAN-DIFFICULTY OF FINDING BOYS OF THE RIGHT SORT-THE BOYS SENT LAST JUNE AND

A gentleman last spring placed a sum of money in the hands of Mr. Wnitelaw Reid to be used in giving poor and friendless boys an opportunity of obtainng a start in life under more favorable circumstances than was possible in the large cities of the East. He had read of the parties of boys which Mr. Reid had sent West in charge of officers of the Children's Aid Society, and requested that the money he gave should be employed in the same way. He imposed the condition that the boys should be orphans or half orphans, the children of respectable Pro'estant parents,

and in circumstances of actual present destitution.

There has been unexpected difficulty in carrying out the requirements for a Protestant party. Most of the destitute children of Protestant origin seem to be taken care of by the congregations or benevolent organizations of their respective churches. An effort was made to enlist the services of several of the more prominent pastors who come directly in contact with the deserving poor, but even with their aid it was difficult to select satisfactory subjects. and only therteen were sent off last June. Since then the Children's A d Society has been endeavoring to select such destitute orphans as the donor required, and this party is the result. It brings the number of children sent West by Mr. Reid since March 11 of last year up to 412. He has also sent 66 adults, the parents of large families, the children of which are included in the above

#### MR. REID'S TENTH PARTY.

The boys who gathered at the rooms of the Children's Aid Society yesterday were from five to seventeen years of age. Some of them were ragged and others were without shirts or shoes. A few were accompanied by parents or guardians, but most of them were without protectors. As each one arrived he was taken in charge by Mr. Brace, the agent of the society. His old clothes were exchanged for new ones, and shirts and other necessary articles were given to him. After they were thus clothed a party of merry-faced, bright looking boys sat on the benches in the reception-room. These boys composed the tenth party sent by Mr. Reid to homes in the West.

Before the boys left the rooms of the society for the train Mr. Reid visited them. In accordance with the wish of the geatleman who provided the money, he gave each one a neatly-bound Bible, with the boy's name in gold letters on the cover-He gave them some words of advice, and told them of their benefactor, who would always remain unknown to them and who had sacrificed one-fitth of his income for a year in order to give them the advantages which they were to enjoy. He said that the best pay they could give their benefactor, who would watch each one's career very closely, was to become good citizens and honest members of society. There were five boys present who were excluded from the party under the conditions imposed. They were sent with the party with funds remaining in Mr. Reid's hands from other contributions. Like the other boys, they were given a Bible too.

The boy's were placed in charge of Mr. Trott, and all took the Western express train on the Eric Railway in the evening. This party is the one hundred and thirty-second that Mr. Trott has taken to the West and provided with homes. They will go to Emmettsburg, Iowa, where homes have been secured in advance for fifty boys if that number could have been sent.

Following are sketches of the boys sent yester-
